The Fran and George Ligler Challenge for Section 2

Enhancing our Capacity to be a
Public Voice for Engineering

The Fran and George Ligler Challenge for Section 2

To stimulate new and increased philanthropic support and to encourage Section 2's leadership, Fran and George Ligler have issued a challenge to all Section 2 members: to collectively raise \$100,000 over the next five years, and they will match it.

"NAE provides an opportunity for engineering innovators to join forces and make a difference to the future of the Nation."

-Fran and George Ligler

Fran and George demonstrate their commitment to NAE through their philanthropy, Fran's leadership on the NAE Council, and their service on Academies' Committees. Both George and Fran believe in the mission of the NAE and understand that your gifts are essential for the NAE to provide independent advice to our nation and promote a vibrant engineering profession.

Support the NAE

Unrestricted gifts afford the Academy much-needed flexibility to direct funds where they will have the most impact.

This flexible money provides NAE with the resources to initiate timely, important activities that strengthen the engineering profession and engage the public about the benefits and opportunities engineering presents to people and society.

Giving Guidelines

- All gifts from first-time donors, including new members, will be matched in full.
- Any increase in a Section 2 member's giving over what he or she gave the previous year will be matched in full.
- If a Section 2 member did not contribute last year, any gift he or she makes this year will be matched in full.
- Only gifts made between January 1, 2015 and December 31, 2020 will be matched or until the \$100,000 match is exhausted.
