

# NATIONAL ACADEMY OF ENGINEERING

2018 marked the completion of four section giving challenges. The Section 1 challenge from **Noel Longuemare**, the Section 2 challenge from the **Arindam Bose** family, the Section 8 challenge from **Chad Holliday**, and the Section 12 challenge from the **Blankenship** family all concluded successfully on December 31, 2018.

This year, Julie and Alton D. Romig, Jr. established a matching challenge for NAE members from the classes of 2015 through 2019. All first-time gifts made in 2019 will be counted towards the matching challenge, as will an increase in a member's 2018 total giving to the NAE. This is a great opportunity to double the impact of your support.

## The 2018 Engineering Challenge (Section 1) Expired December 31, 2018
