

President's Address John L. Anderson

2021 Annual Meeting
October 2, 2021

There is grandeur
in this view of life,
with its several powers,
having been originally breathed
into a few forms or into one;
and that, whilst this planet
has gone cycling on
according to the fixed
law of gravity,
from so simple a beginning
endless forms most beautiful
and most wonderful have been,
and are being, evolved.
