

John L. Anderson
President

October 3, 2022

Dear Colleague,

Engineers are at the heart of solving global-scale challenges that affect all people. We are creative, diverse, forward-looking, and we approach challenges as opportunities. In a rapidly changing world, we go beyond the “what” and focus on the “how.”

The National Academy of Engineering (NAE) is applying our unparalleled convening power to bring together the best minds across disciplines, sectors, and borders to make progress on pressing societal challenges—and anticipate and prepare for future crises. As a supporter of the Academy, you enable the NAE to provide leadership in a world of accelerating change.

This month, the NAE publicly launched a comprehensive \$100 million fundraising campaign. This effort will strengthen the Academy to work toward our mission to advance the welfare and prosperity of the nation. Your support—together with the entire Academy community—is critical to the Campaign’s success, and I hope you will join me in making a gift.

The Campaign for Leadership in a World of Accelerating Change—guided by our core values of independence, integrity, and commitment to diversity, equity, and inclusion—will center on the strategic priorities of people, systems, and culture. [Learn more about the Campaign and how you can get involved at www.nae.edu/acceleratingchange.](http://www.nae.edu/acceleratingchange)

Your support plays a critical role in everything we do, and enables the Academy to provide leadership in a world of accelerating change. Please donate and join us in this landmark effort to advance the NAE to an even higher level.

Sincerely,

A handwritten signature in blue ink that reads 'John'.
